PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building production-grade and AI powered web applications across the MERN and Next.js/Supabase stacks. Skilled in designing secure REST APIs, implementing authentication and role-based access control, and building responsive, scalable user interfaces. Strong foundation in database design, system architecture and end-to-end delivery.

PROFESSIONAL EXPERIENCE

- Full-Stack Web Development Intern — The Digital Hub UNRWA, Beirut (Hybrid)**June 2026 – Sep 2026
- Built and shipped full-stack web applications, including FitConnect and EatWise, from initial requirements and UI design through development, database integration, testing, and deployment, working across frontend, backend, and database layers.
 - Developed applications using React, Next.js, Node.js, Express.js, FastAPI, and MongoDB/PostgreSQL, implementing RESTful APIs, authentication, validation, role-based access control, and efficient database design.
 - Collaborated within a development team under mentorship, using Git/GitHub, pull requests, code reviews, Jira, and Agile/Scrum practices to deliver features iteratively and maintain code quality.
 - Integrated AI-powered features using LLMs, RAG and AI APIs, while using AI coding agents to support development and debugging.
 - Translated real-world product requirements into working software, strengthening skills in system design, problem-solving, debugging, testing, documentation, and full project lifecycle ownership.
- Web Development Trainee — Open Technology Company, Saida (Onsite)**May 2022 – Jul 2022
- Completed hands-on training in web development fundamentals, building dynamic, interactive interfaces with PHP, AJAX, jQuery, and Bootstrap.
 - Applied both theoretical and practical concepts to develop responsive, database-driven web features during the program.

PROJECT EXPERIENCE

- FitConnect — Personal Trainer Booking Platform | [GitHub](#)**Jul 2026
- Built a full-stack booking platform (Next.js, PostgreSQL/Supabase) enabling clients to discover trainers, book sessions, and pay end-to-end, with a two-layer authorization system combining route guards and Row Level Security.
 - Engineered real-time slot validation, dual-layer payment validation, and business-rule enforcement (reschedule limits, refund eligibility), plus role-specific client and admin dashboards.
- EatWise — AI-Powered Personalized Meal Planning App | [live site](#)**Jul 2026
- Built a full-stack MERN app integrating the Groq API (Llama 3.3 70B) to generate AI-personalized meal plans based on user health profiles, allergies, and goals.
 - Designed a normalized MongoDB schema with BMR-based calorie calculations, JWT-secured role-based access, and an admin analytics dashboard using aggregation pipelines.
- AI Career Navigator — AI-Powered Career Discovery & Roadmap Platform | [GitHub](#)**Sep 2026
- Built a full-stack platform (Next.js, FastAPI, PostgreSQL/Supabase) that assesses users' technical skills, matches them against real career requirements using a deterministic weighted-scoring algorithm, and generates AI-personalized learning roadmaps via the Groq API.
 - Engineered a hallucination-resistant AI pipeline using structured JSON-mode output and server-side response validation to ground every generated roadmap step in real assessment data, plus Row Level Security and Google OAuth for secure, isolated user data.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Zustand, TanStack Query
Backend: Node.js, Express.js, Python, FastAPI, Django, RESTful APIs
Databases: MySQL, MongoDB, Mongoose, SQL, NoSQL
Authentication & Security: JWT, Authentication & Authorization, RBAC, Secure Cookies
AI: LLMs, Prompt Engineering, AI API Integration (Groq, OpenAI)
Testing: Jest, Vitest, Unit & Integration Testing
DevOps & Version Control: Git, GitHub, Branching, Pull Requests, Code Reviews, GitHub Actions, CI/CD, Cloud Deployment
Architecture: REST API Architecture, Clean Architecture, SOLID Principles, Design Patterns, Scalable System Design
Web & SEO: SSR, CSR, SSG, Core Web Vitals, SEO

LANGUAGES

Arabic — Native | English — Professional Proficiency

EDUCATION

Bachelor of Science in Business Computer — Lebanese UniversitySept 2019 - Dec 2022
